No 180

## RUSSIANS FLEE

From the Japanese Northwards

### PORT ARTHUR'S DAYS NUMBERED

The Wily Japs Now Occupy Every Position Commanding the City Except One and are Slowly But Surely Making the Complete Downfall of the City Inevitable

#### KUROPATKIN MOVING NORTH

St. Petersburg, August 2.—A report from apparently reliable sources late tonight, was to the effect that General Kuropatkin's main force had been rapidly moving north for several days.

According to this report no troops proceeding to the front from Russia had gone past Harbin in the past three days. They will be detained there and every available piece of rolling stock will be rushed south empty for the moving of troops to Liao Yang and other points to the northward, leaving a skeleton force to contest the Japanese advance on vital positions.

#### ARTILLERY DUEL.

Hai Cheng, August 1.—An artillery duel raged all day along the whole front, but the Russians hold their positions.

#### JAPS EVERYWHERE SUCCESSFUL.

London, August 1.—British correspondents with General Kuroki in the field, in brief despatches, dated July 31st, concur in the statement that the Japanese have carried positions, leaving only one defensible position between them and Liao Yang.

#### JAPS CLOSING IN ON PORT ARTHUR.

Chefoo, July 31.—A Japanese merchant has received word from a Chinese whom he trusts to the effect that the Japanese have occupied every position surrounding the besieged fortress of Port Arthur, with the exception of Golden Hill. The Chinese stated that both sides suffered tremendous losses in the operations necessary to bring about this state of affairs. The members of the Russian intelligence bureau here, while denying the report that Port Arthur has been captured, are inclined to believe that the reports are true to the extent that the Japs have made great progress in their operations about the besieged fortress. The party of Russian refugees expected here today have not as yet arrived.

#### A Yankee View

The following is an American view of the sinking of the Knight Commander by Russia:—

"Careless newspapers call the Knight Commander, the merchantman sunk by the Russian volunteer fleet east of Yokohama, an American ship because she sailed from New York. She was a British tramp steamer, though she may have had some American goods aboard. Only Great Britain is interested in the ship, though our government may be interested in part of the cargo. But many American merchantmen are engaged in trade between the Pacific coast and Japanese ports. Any day we are likely to be confronted with the same problem—the destruction of this ship places before Great Britain. It is understood that our state department has been making very careful preparations to deal with this problem as soon as it arises.

The situation created by the sinking of a neutral ship on the high seas, where a blockade has not been proclaimed, is too serious for much discussion without further information. The performance described in the dispatches of Monday is rank piracy. Nothing like it has been seen since the Alabama was sent to the bottom of the English channel forty years ago. The Alabama burned her merchant prizes because she had no port to take them on; but Captain Smyth risked hanging at the yard-arm if captured by an American cruiser. Russia is sinking these of a neutral without blockade. If the story is true, it can

be explained only on the theory that the Russian commanders are ignorant of international law and have exceeded their orders.

In that case, the act will be reviewed as soon as St. Petersburg can inquire into. Of course, it may be that the ship refused to surrender when hailed; but this is not likely. Most British merchant captains know the law better than Russian naval officers. At the worst, the Knight Commander had nothing to fear under the law than capture and condemnation for carrying contraband. The Russians were bound to take her into port and submit her case to an admiralty court. They had no more right to destroy, sell or exercise any power of ownership over her before this was done than a policeman has to execute a criminal with his revolver at the moment of arrest.

#### Harry O. Wins Free-For-All

Winnipeg, Man., July 30th.—In the big free for all which attracted fully 30,000 people, Harry O. won. Harold H., the favorite, was second, and Democracy was third. A large amount of money changed hands on the race. Harry O. has started several times this season but has shown no speed in other fast company. It was rumored that he was being held for this race. There were four heats, the first being 207.

Harold H. spent himself in the first heat, which he won in the record time of 2:07.

Harry O. took the next three heats and the race.

Harold H. got second money. Democracy third and Chestnut fourth.

Departmental Store  
Phone 22

There are no microbes in St. Charles Evaporated Cream. Try it. Diluted with water that has been boiled, for baby. You'll have no more troubles. Recommended by physicians.

## ASTLEYVILLE

Bulletin Correspondence.

Miss Kathleen Graydon, of Edmonton is visiting Miss Edith Astley.

Wheat in this locality is looking excellent and other grains very fair.

A heavy and welcome shower visited here on Thursday afternoon.

Farmers are very busy in the hay. Mr. W. Taylor is visiting the Winnipeg exhibition; also his aged mother, who resides in Manitoba.

Mrs. T. Lewis, who has been suffering from a bad attack of facial erysipelas during the past two weeks, is able to be around again.

Rev. Mr. and Mrs. Forbes passed through here on their way to the Landing, where they are spending their holidays.

Mr. Vannier passed away last Monday morning quite suddenly. Deceased had not been feeling well for about four days prior to his death, but nothing serious was anticipated and to all appearances he was better on Saturday and Sunday and was out. But death came at four o'clock on Monday morning. The news of his death was a shock to the whole community, and much sympathy is expressed for his aged mother and three nieces whom he leaves to mourn his loss. Mr. Vannier came from Vermont, twelve years ago and was one of the first settlers in this district.

A wedding was solemnized in the schoolhouse in this district on July 12th, the contracting parties being Miss Mary Ellen Perry and Mr. Rounceville of Horse Hills. The bride who is the third daughter of Mr. Perry, formerly of Bolton, Lancashire, England, and now of Astleyville, was given away by her father. Her sister, Miss Annie Perry, acted as bridesmaid, and Mr. Shilleto of Horse Hills supported the groom. After the ceremony, the bridal party and guests drove to the home of the bride's parents, where dinner awaited them; after which the happy couple left for their home in the Horse Hills amidst the many good wishes of their friends. Rev. Mr. Rickard was the officiating clergyman.

Mr. Hill, of Edmonton, is plastering the schoolhouse here, which when finished, will be very creditable to the settlers here. We understand that it is to be painted also outside.

Mr. McKay and company, who have been building the telegraph line to the Landing, passed through here last evening on their way to Edmonton.

July 30th.

## Russia's Mistakes

London, July 24th. The war has been completely overshadowed the last week by the political situation arising from the affairs in the Red Sea. The most interesting feature reaching London is another illuminating letter from H. J. Whigham, dated at Mukden, on June 17th. This shows how, when the Japanese commenced the advance on Liao Yang Gen. Kuropatkin had less than 50,000 troops scattered from Feng Wang Cheng on the east to Newchwang on the west, Kalchow on the south and Mukden on the north. They were at Kurik's mercy, but the latter elected to go back.

Then Russian reinforcements began to arrive in earnest. Kuropatkin, with a steadily growing army, held an excellent defensive position at Hsicheng and Liao Yang. Obviously it was his game to sit down at Liao Yang and let his army grow till after the rains. But Viceroy Alexeff, Russia's evil genius of war, was keeping a sort of royal state only a few miles from Kuropatkin's headquarters. On his advice Gen. Kuropatkin was ordered, against his better judgment, to send Gen. Stakelberg to relieve Port Arthur. Thus the Russian army was again strung out, while the relieving force entering a deathtrap at Vafangow, which resulted in drawing the main army from its base.

Alexeff's motive was to save his own face, no matter what the cost. "He determined by every effort and at whatever risk to save the fortress, the fall whereof would destroy forever his already tarnished reputation."

Mr. Whigham describes Alexeff as "a stupid, obstinate man. It was entirely his fault that difficulties were put in the way of the foreign consuls coming to Manchuria. His subordinates improved vainly, but similarly in every way he chose to irritate England, America and Japan. When informed of the preparations of the Japanese, he told the intelligence officers they ought to do their work better and not bring him fanciful tales."

Alexeff how is the laughing stock of the booties in the streets of Mukden and Kharin. He lives in an enclosed space, to enter which correspondents are specially forbidden even to ask, and from hence he issues bombastic decrees whereat the Chinese who are intelligent enough to read simply laugh. "Alexeff," continues Mr. Whigham, "is still a great power within a radius

of 200 yards of Mukden and the railway station, but outside that Russian and foreigners alike, even the Chinese, laugh at the imperial airs of the 'Little Armenian,' but for Kuropatkin it is no laughing matter."

## Foster's Weather Forecast

Washington, July 30th.—Last bulletin gave forecasts of disturbances to cross continent 30 to August 3, warm wave 29 to August 2, cool wave August 1 to 5. Next disturbance will reach Pacific coast about 4, cross west of Rockies by close of 5, great central valleys 6 to 8, eastern states 9. Warm wave will cross west of Rockies about 4, great central valleys 6, eastern states 8. Cool wave will cross west of Rockies about 7, great central valleys 3, eastern states 11.

This disturbance will come in a period of low temperatures and general rains. Electric activities will be extremely great, the rhythmic, or periodic regularity, of the storm waves will be broken up and intensity of all storm disturbances be greater than usual.

This storm wave will not be severe on the Pacific coast, but it will gradually grow in intensity for eight days, when it will be out on mid-Atlantic, on the European steamship highway and that locality will then, — about August 12—be an unsafe place for sea voyagers. The eastern and New England States will get the full force of these storms not far from August 16, and that will be an excellent time to attend to business around your own doorways, where you can get in out of the wet or perhaps away from elementary forces that are more harmful, sometimes, than rainfall.

The storm wave will be preceded and followed by exceedingly cool weather and the hot wave will not remain long. Temperatures will go relatively lower in southern states than in northern states.

Temperatures of August will have a general downward tendency, with increase of rainfall, till about 15, thereafter an upward movement till end of the month with decreasing rainfall. The coldest part of the month will be near 15th and the hottest part near September 1.

Storm forces will be at their greatest intensity near 7 and 20. I am expecting a hurricane to organize on the Caribbean sea not far from 11 and approach our southern coasts from 4 to 8 days thereafter. The long weather records that have been on deposit in the weather bureau 50 years have not been prepared by that institution so that more definite reports can be made.

## Hand Shot Off

Alberta Advocate:

On Saturday last Mr. McKee, of Snake Lake, near Red Deer and his son John, loaded their shot gun with buckshot and went in search of a lynx that was reported in that neighborhood. A search for the animal brought no result and the gun was left against a tree while the two were employed at something else. It is thought that little Johnnie stood alongside the tree and was resting with one hand against the trunk directly above the muzzle of the gun, when in some unknown way the trigger was pulled and the gun discharged.

The right hand was blown almost entirely from the wrist. The horror-stricken father hastily bound up the injured member and made all haste to bring the boy in to the Red Deer hospital. This happened about 12 o'clock, and it was Sunday morning before they arrived at the hospital. Dr. Parsons was summoned, and he, assisted by Dr. Denovan, amputated the hand a short distance below the elbow. The patient is doing nicely and the injured member is getting along well. The little fellow is about 13 years of age, and, although he feels the loss of his hand, yet he is most cheerful and has already begun to learn to write and draw with his left hand.

## PARLIAMENT

Ottawa Correspondence:

## Agricultural Estimates

The attitude of the opposition towards the Minister of Agriculture, and incidentally towards the interests which are in his charge, was strongly in evidence throughout the business of Friday. The estimates of the Department of Agriculture were under discussion nearly the whole of the day although they included only three or four items. Some of the items were: \$100,000 for experimental farms, \$220,000 for that branch of the department under the control of Professor Robertson, Commissioner of Agriculture and Dairying, and \$40,000 to make advance payments on milk and cream handled at the government creameries in the Northwest.

## Factious Objections

It might naturally be supposed that estimates for these purposes would have been accepted by the opposition without undue obstruction, but such was not the case. From early morning till late at night a fire of questioning and interruption was kept up by a handful of not more than fifteen or twenty of the opposition members, which had decreased to not more than four or five when the proceedings closed. Every proposal was met by objections from all points of view by members of the opposition, and at one time there seemed to be a possibility that they would hold up the business altogether, with the purpose of throwing discredit upon the minister, but with the result of injuring the services coming under control of his department.

## Criticism Which Defers Action

If there were any legitimate criticism to be made of the Department of Agriculture from a farmer's point of view there could be no objection to its being made, but the only objection that can legitimately be urged against the policy or administration of the Minister is that he does not reach out more extensively in the establishment of experimental farms and the aiding of the dairy industry. When, however, the moderate proposals which he brought before parliament at this session, met such a reception as these did at the hands of the opposition, it naturally has a very serious effect in deterring his further efforts in these directions. In their effort to belittle the minister they find it necessary to belittle the purpose for which his department exists and to speak in contemptuous terms of the experimental efforts that are being made to improve agricultural conditions. It is not that the handful of opposition members now forming a party of obstruction have anything special against the agricultural interests, but they have conceived a dislike of the Minister of Agriculture. They find the character of his work a ready subject for coarse jests, and sacrifice the real interests which are dealt with by his department in the mere effort to discredit him personally.

## Dominion Live Stock Register

Mr. Fisher stated that it was his intention to establish a live-stock register for the Dominion. At present there are provincial registers but it was now thought desirable that there should be one of the Dominion. The expense would be about \$2,500.

July 25th.

## PARLIAMENT

Ottawa Correspondence.

## Committee of Supply

The Canal and Railway estimates were up for consideration during the whole of yesterday and fair progress

was made. Criticism was confined to details and was not pushed to an extreme.

## Supplementary Estimates for 1904-5

The supplementary estimates for the year ending June 30th, 1905, were laid on the table. The total is \$11,839,270, of which seven million is expenditure on revenue account, and four and three quarter millions on capital.

The government of the Northwest Territories gets an additional grant for schools, clerical assistance, printing, etc.—\$404,000. This brings the total subsidy of the Territorial government for the year ending June 30, 1905, up to \$1,111,979.

The bridge over the Belly River at Lethbridge gets \$19,200, and that over the Old Man's River at Macleod gets \$23,000. Bridges at these points were originally constructed by the Dominion government many years ago. The old bridges were washed out by the high water of two years ago. The Dominion Government was under obligations to replace the bridges, and was preparing to do so when they were approached by the Public Works Department of the North West Government with the suggestion that that Government was in a better position to replace the bridges quickly and cheaply than the Dominion Government. As both bridges were very necessary and it was most desirable that they should be replaced as quickly as possible, and also that they should not cost any more money than was absolutely necessary, the Dominion Government arranged with the Territorial Government that the latter should build the bridges and that the Dominion would pay for them. Under this agreement the North West Government went to work and their original estimate of the cost of the bridges, \$84,000, was voted at last session of Parliament. It was found, however, in practice, that their expectations as to cheap construction were not realized and that the original estimate would be over run by the amounts mentioned, which it is now proposed to vote. The total cost of the two bridges will be \$126,200. Considering the size of the streams it can scarcely be argued that the work was done cheaply, and in view of the fact that the bridges are not yet completed it has not been done with any remarkable degree of speed. It is more than likely that hereafter the Dominion will take the responsibility of public works in the Territories, for which it agrees to pay.

The Battle river bridge, which is a Dominion work, gets \$10,000 for new concrete structure and protection of approach with coaling.

During the high water of two years ago the Old Man's River at Macleod changed its course, and an appropriation of \$8,000 is made to provide for turning it into its original bed.

A sum of \$800 appears as payment for work done in opening a winter road between Lesser Slave Lake and Sturgeon Lake in the Athabasca district.

The Edmonton-Athabasca Landing telegraph line figures at \$5,400.

The Victoria-Andrew branch of the Government line to Battleford figures to the amount of \$1400 for an extension to Whitford; and a telephone line from Edmonton to Edmonton Indian Agency, re-vote, \$900.

Meteorological service for the Territories and Manitoba gets \$10,000.

Indians of Manitoba and the Territories get \$13,500 additional for livestock and \$200 additional for schools.

Reward offered for the recapture of Ernest Cashe, \$1000, and payment for property destroyed in his recapture, \$850.

For the purchase, equipment and maintenance of vessels to be employed in patrolling the waters in the northern portion of Canada, also the establishing and maintaining police and customs posts at such points on the mainland or islands as may be deemed necessary from time to time, \$200,000. This means the assumption of Canadian control in Hudson's Bay and in the Arctic at the mouth of the Mackenzie.

The list of appropriations for public buildings in the Territories includes, barracks for permanent corps Strathcona Horse, \$40,000; place of location not mentioned. Enlargement of Calgary post-office and examining warehouse \$15,500; land-titles office, Calgary, \$15,000; improvement to Lethbridge Immigration building, \$1000; Medicine Hat public building, \$5,000; Moose Jaw public building, \$15,000; Prince Albert public building for post-office, land office, court and registry purposes, \$30,000; Regina Government buildings, for Dominion Lands office, \$2200. Repairs and improvements to Regina public buildings, \$2,200. Regina Immigration building, \$2,500. Regina post-office, customs house, etc., \$10,000. Government House, Regina, \$1,200.

July 26th.

## Business Outlook

The Winnipeg Commercial sums up the business situation of the West as follows:—

"Private advices from all the wheat-growing districts and the railway reports concur in the statement that the crop situation has greatly improved during the past two weeks, and is now exceedingly favorable for a large yield. Even the one or two conservative grain men, who are always enlarging upon the uncertainty of how the crop will turn out and adopt as gloomy a view as possible until they are absolutely forced to acknowledge the contrary, now admit that conditions are splendid. At the same time wheat prices are climbing. The business situation requires no better tonic than this.

The strike of the meat packers in the United States, which has broken out again, may have serious effects upon the export meat business. Should it continue for a month or more, large shipments of cattle will no doubt be forced upon the British market, which would otherwise be used up by the packers. This would reduce prices for meat on the hoof. At present it is believed accumulations of cattle in the United States are being held and fed, and if the packing houses operate again shortly the result ought to be a greatly improved product for a time. The hide trade here has been somewhat stultified, and should the strike be of long duration, cured meats may be affected by an advance in England.

Bank clearings for the week show an advance of considerably more than half a million over the corresponding week of last year. The increase is \$651,674, the total being \$5,585,811. As compared with the week two years ago, the increase is \$1,016,521. Montreal clearing show an increase of \$1,111,210, amounting to \$20,256,381.

28	72	54
29	67	50
30	66	47
31	74	49

The average temperature for the month was 60.85. The precipitation was 2.79 inches.

## The Winnipeg Free-For-All

The Free Press gives the following account of the Winnipeg free for all: Harry O. won the great free for all at the Dominion Exhibition.

This alone was sufficient to bring the excitement of the greatest crowd that ever filled the grandstands and thronged the paddock and ringside on the grounds, to fever heat but when to this feature was added the breaking of all Canadian records on a half mile track the enthusiasm almost burst the bounds.

Chestnut forced the much vaunted Harold H. to stop this new record for a mile in 2:07 flat, and in addition Chestnut had the honor of leading the procession in the fastest quarter and half in the records of the Canadian turf.

The race was one of the greatest surprises that has ever been sprung in Winnipeg. The weather was by no means ideal, but the drivers were out for blood, and they got it. A number of spectators who put their watches on the event could not believe the tickle till the official figures went up, and the announcement was received with cheers. They all knew it was fast, but had no idea that the official track record had been pulled down three full seconds.

It was Harry O., too, the winner of yesterday's big race, who established that official record for the track which was also the Canadian record when last year he covered the distance in 2:10 in the fastest heat of the free for all. Although in 1902 Harold H. had stopped an exhibition mile in 2:09.4, which was hitherto considered hard to beat. He has also done the mile under similar conditions on the southern circuit in 2:07.4, and on a mile track in 2:05.2. The world's record on a half mile track was made by Prince Albert last year against Anacorda at Hagerstown, when he covered the distance in 2:04.2, reducing the former record from 2:05, which had stood for years; but this was in the fall of the year and on an ideal track.

There was not a moment of the second race, the free for all, which was not crowded full of interest. The horses came up with Harold H. a strong favorite—at 1 to 5, which was afterwards hammered down to 2 to 5. The Portage crowd were out strong for Chestnut, who looked good after the work done on the Island track. Opening at 4 to 1, he pounded him back to 2 to 1 with lots of money in sight. Even money on the field against Harold H. was readily taken and had been for several days before the race. Harry O. and Democracy were not figured on at all in this opening. The betting on the race was Chestnut, 1 to 2; Democracy, 1 to 2; Harry O., 4 to 1; Noname, 4 to 1; Harold H., 1 to 5. It is worthy of note just here that the Winnipeg free for all seems to be fatal for the favorite, as the event has gone wrong almost every year. The bookies were busy all the time while the horses were lining up and the betting ring was so jammed that it was hard to get near one of the stands. All kinds of money was moving and all kinds of bets were made, but always with an eye on Harold H.

The horses lined out with Noname, an unknown with a reputed low mark, at the pole. Then came Democracy, Harry O., Harold H., and Chestnut, in the order named. Dr. Stone had some little trouble in getting them away for they were all eager. When they got the word Chestnut was about a length to the bad, but in one of the most wonderful bursts of speed imaginable cut off the bunch and took the pole before the quarter was reached. This quarter was done in 30 1-2. The gelding never faltered

in his pace, but held the lead easily for the half, with the grey a good second and the favorite back in third position. When they struck the back stretch Harold H. started after the leaders, and the crowd came to their feet. He overhauled Democracy about half way down and established his overlap on the leader just at the turn. It was there that Bell made the mistake of the day, for he gave Chestnut the whip, and the animal would not stand for it, otherwise the time would probably have been even better. As they swung into the stretch the two horses were racing neck and neck. The shouts from the stand became a roar, and with one final sprint they went under the wire, with Harold H. a half-length to the good. Democracy was coming strong in third place, with Harry O. about six lengths back. When the time was put up the crowd looked at it for a second or two, and when they saw that all previous records had been smashed by three seconds, the cheers broke out afresh. The quarter was 30 1-2 and the half 1:02. It looked as if the favorite was booked for the whole distance, but there was a stumbling block.

Money was out of sight in the second heat, and about all that was doing with the general run was to try and pick a place. Some of the wisest ones remembered, however, that Harry O. held the record, and thought that he still might have a kick or two left. There was also considerable chance that the fast ones had shot their bolt in the record mile, and would come down some. They struck it right and made their killing at a 10 to 1 shot. When the horses got the word, Chestnut again jumped to the lead and set the pace for about the same part of the distance as before. Harold H. chased him hard, while at the half Harry O. was plugging along at fourth position. After passing the stand Barnes let out a length and started after the field. Noname was easy, and on the back stretch it was alternately the brown and the bay. On the turn Chestnut was passed, and the old enemies were out for it. Harry had the better position, and worked it for all it was worth. With whips swinging they came down the line, but the previous mile had been a heart breaker and the brown took the trick. On the stretch Democracy made a bid for position, showing the Portage horse out of third. At first the crowd could hardly believe what had happened, and some were inclined to talk fluke.

The third heat was a repetition of what had gone before. Chestnut jumped for the lead, making the pace for the field. Harold H. followed him hard, while Harry O. lay low for the back stretch, and when the position was right he went after the leaders and captured the event. He seemed to have all kinds of speed, and the pace was held up to within a second of record time. It was a wonderful exhibition, and the crowd went wild. Chestnut was going very strong, and was being played strong for position.

When the horses came out for the final heat there had been a marked change in the betting. Chestnut stood at 5 to 2, Harold H. and Harry O. were at even money and Democracy was 3 to 1. Democracy took the pace here, with Chestnut still out for the lead. It looked as if he and the brown were after the Mackenzie horse. It was a sprint from the start but Harold H. was holding down third place at the half. He was game, however, but could not connect, and Harry O. made a most sensational race of it, winning the heat and the race. The crowd went wild. They cheered and shouted and if it had been possible they would have chaired Driver Barnes.

## THE MILITIA BILL

### DISCUSSED AT OTTAWA

Dealers will be Held Responsible For the Correct Marking of Binder Twine. Others Act.

#### Bulletin Special Dispatch.

Ottawa, Aug. 1st.—The amendments to the postoffice act regarding city postoffices were passed.

The amendment to the act for the inspection of binder twine placing upon dealers the responsibility for the correct marking of twine and the grain inspection act received their third readings.

The MILITIA BILL was under consideration most of the day.

Sprengle, Hughes, Gourly and others of the Opposition objected that the bill did not provide for the sending abroad of the Canadian militia into the wars of the empire. The Minister of Militia said it was not intended that they should be. The Opposition Leader said the effect of the new bill was exactly the same as the existing act but he objected to the change in the wording.

## LEAVING EXAMS

### SUCCESSFUL STUDENTS

From the Edmonton and Strathcona Schools Announced. Both Schools do well

Minerva Scott.  
Ruth Somersall.  
Stanley Walter.  
Clifford Toie.

### War Notes

St. Petersburg, July 30.—A special despatch from Liao Yang giving a graphic picture of the fight at Ta Tehe Kiao, explains that the Russian immunity from damage from the furious Japanese bombardment was due to the fact that the Russian guns were mostly behind a range of steep hills and were concealed cleverly by high grass and trees, and that the Chinese were therefore unable to helicopter the position of the guns, as they formerly had done, to the Japanese artillerymen. The Japanese had many large calibre guns and used chiefly shrapnel. They used also high explosive shells. The fight was almost wholly an artillery duel, and was a magnificent spectacle. The crest of the hills held by the Russians were converted into a raging volcano and earth was thrown up in geyzers by the continuous rain of bursting shells, until sand and dust hung in a cloud overhead and the fire among the

## HAD A CLOSE CALL

### CHANCELLOR BURWASH

And Party Narrowly Escape a Very Serious Accident While Driving Near Calgary

#### Bulletin Special Dispatch.

Calgary, Aug. 2nd.—Chancellor Burwash and Dr. John Burwash, of Victoria University, Toronto, with their wives, and the Misses Burwash had a miraculous escape in a runaway accident on the steep hill near Calgary, at Pat. Burns ranch yesterday evening.

The party were driving a pair of bronchos in a democrat when they became unmanageable, on the hill, and carried the rig over the precipice.

The ladies and Doctor John Burwash jumped and saved themselves.

Chancellor Burwash went over with the vehicle, under the horses' heels and was badly shaken up. He had to have nine stitches put in his hand.

Dr. John Burwash had his shoulder dislocated in the mishap.

The trees and grass started by the shells, added a stifling smoke and heat to the awful glare of the tropical sun. The shrapnel, like great white winged birds, sailed overhead. The mean and drone of their coming could be plainly heard and the Russians threw themselves behind rocks and other shelters as the missiles burst.

The Japanese shifted the position of their guns, both to escape the Russian fire and to locate the masked batteries of their opponents. Late in the afternoon they got in a position that enabled them to sweep the plain behind the hills occupied by the Russians, and came dangerously near locating, though they did not quite find the Russian batteries. Everyone, except the commanders, was surprised and disgusted at the order to retreat. The Russians burned everything valuable at Ta Tehe Kiao before leaving.

Hai Cheng, Friday, July 29.—(Delayed in transmission).—The attack on the right flank of the Russian southern army developed at 7 o'clock this

morning. The battle was opened with heavy artillery fire, under cover of which the Japanese infantry advanced along the railway until eleven o'clock when their forward movement was checked. The fighting was continued, according to the last accounts, but the result is not known.

London, July 30.—(Times cable).—The Moscow Gazette urges the Russian commanders not to give any quarter to the Japanese. "Our great General Suvaroff," it says, "when he fought against civilized French, often gave orders to give no quarter to the troops. This, which was not cruelty or barbarism, was a necessity, and now necessity forces us in this war with a half savage and barbarous nation to adhere to Suvaroff's rule of no quarter. In our war with Japan we are like a man attacked by a viper. It is not enough to frighten it and leave it to hide in the bush; it must be destroyed, and we must do this without considering whether England and cosmopolitan plutocracy object or not. To burden Russia with thousands of Japanese prisoners, spreading dysentery, typhus and cholera among the Russian people, would, perhaps, be in accordance with humanitarian principles, but it would be very unwise. No quarter and no prisoners, should be our motto."

## Big Land Deal

The Winnipeg Free Press has the following to say regarding the enormous deal in Alberta lands to which reference was made in the Bulletin a few days ago:—

One of the largest individual transactions in land ever recorded in the west, involving probably \$750,000, has been completed by the purchase by E. W. Day, of Toronto, of twelve townships of land from the C.P.R. in Alberta.

The land included in the purchase comprises the C.P.R. holdings in townships 45, 46, and 47, in ranges 13, 14, 15, and 16, west of the 4th principal meridian. It covers all the C. P. R. land in twelve townships and includes about 120,000 acres.

The district begins at a point about 40 miles east of Wetaskiwin and runs towards Battle river. It is a territory well fitted for grain growing and stock raising and watered by two fine bodies of water, Quarral lake and Wavy lake, and by the Iron creek on the east.

This territory has been opened up only within the last year or so, but already there has been a large influx of settlers, practically all Americans, and the homesteads throughout this district are nearly exhausted. To accommodate the large population which is going into this district, the C. P. R. is building a branch line running eastward from Wetaskiwin. Active operations are now going on, and 25 miles have been graded. This road runs directly through the land purchased by Mr. Day. It is supposed that ultimately it is the intention of the C.P.R. to extend this road to Saskatchewan, there to meet one of its eastern branches and thus form a second line through the west.

Mr. E. W. Day, who has effected this purchase, is an old resident of Winnipeg and is widely and favorably known throughout the west. He was for many years a prominent officer of the Massey-Harris company in this city, and was subsequently manager for Winnipeg of the Globe Savings company of Toronto. He then became general manager of the Globe Savings company and removed to Toronto, where he has since resided. Upon the amalgamation of the Globe Savings company with the Colonial company, Mr. Day retired from active business. He has since that date spent considerable time in the west looking after his property interests in this country.

Mr. Day arrived in the city yesterday from Calgary, where he had been on business, and being seen by a representative of the Free Press, confirmed reports of his extensive land purchase which had already been current. He was asked whether he had made the purchase on behalf of the Empire Land company, with which he had been connected, but in reply he said he had not, as this was a personal transaction. Mr. Day stated that he had personally selected this land, assisted by Mr. Robert Harstone of Warkworth, Ont., and Mr. J. A. O'Neill Hayes of Wetaskiwin. They went over the ground some two months ago and were much pleased with the country. They found the settlers who had taken up homesteads very well satisfied with their holdings and doing well. These settlers reported that the country was particularly well adapted to mixed farming and stock raising, the winters being mild enough to permit cattle to run at large.

Mr. Day will be in town for a few days staying at the Clarendon, before continuing his journey to Toronto. He is now perfecting his plans for placing settlers upon the land, and will probably make use of the systems which have proved so successful in the hands of large land companies of the west. Already considerable sales have been made to Americans, who are looking for homes in the Canadian west. Mr. Day will be represented at Wetaskiwin by Mr. Hayes, and in Winnipeg by Mr. J. H. Morley, of the McIntyre block, who is a former resident of Toronto.

## Objects to Exportation

Port Arthur, Ont., July 27th.—Mr. R. G. Chamberlain, secret service agent of the Dominion of Canada, served a warrant yesterday on Mr. James H. Bacon, calling for the arrest and deportation of that gentleman on the ground that he has violated the alien labor law of Canada in coming into the country within a year from the date from the United States, under contract with Mr. J. R. Stephens, chief engineer of the Grand Trunk Pacific Railway.

The warrant is signed by the attorney-general of Canada, and is dated July 18th, 1904. Mr. Bacon at once retained the services of Mr. F. H. Keeler to fight the case in the courts, and also requested the U. S. vice-consul at Fort William to wire the state department at Washington through the proper channels to take the necessary steps to secure a proper trial of the case in the Canadian courts.

The position taken by Mr. Bacon is this: First, the execution of the warrant at the present time would be an ex-parte proceeding and contrary to all his good opinion of British justice. He received no notice that the warrant would be issued, nor has he been accused of any breach of law or had a hearing before a court on such charge.

Second, he emphatically denies having violated the alien labor law of Canada in any way whatsoever, and claims that the warrant is illegal on the following grounds: The last section of the Canadian alien labor law states that it shall be enforced only against such countries as enforce similar laws against Canada. The United States passed a law in 1891 allowing all professional men, including civil engineers, to come into the country from foreign countries under contract with private individuals or corporations. Now, the only restriction placed on such contracts in the United States, he affirms, are federal, state and municipal civil service laws, which require public officials to be citizens of the United States. These laws vary with the several states and cities, individuals and private corporations such as railway and canal companies. Industrial companies and engineering firms, etc., are continually bringing men into the United States under contract, civil engineers and professional men from Canada, and do so lawfully. That part of the Grand Trunk Pacific company on which Mr. Bacon is employed is a private corporation authorized by an act of the Dominion parliament, and he is no way an employee of the Canadian government, nor of any provincial or municipal corporation.

Third, Mr. Bacon is a property owner in this district, and as such claims to have additional rights in Canada, for which he demands respect.

Mr. Keeler, acting for Mr. Bacon, has applied to the courts in Toronto for a writ of habeas corpus, and requested the attorney-general to grant a stay of proceedings until the application can be heard, and information states the stay has been granted.

It might be interesting to note that Mr. Bacon is a graduate of Harvard University, and is a member of the Society of American Civil Engineers, and was an officer of the 3rd U. S. Volunteer regiment during the Spanish-American war. The public will watch with great interest future developments in this case.

## Drowned at Regina

The Standard gives a most complete account of the death of two of Regina's young men at Long Lake on Tuesday last. It says:

Sid news has just reached town of the double drowning at Long Lake this morning, when Robert Jelly, manager of the C.P.R. commercial telegraph of this city, and Ernest W. Peart, of the Western Hardware Company, lost their lives in the lake.

From the scant particulars received it would appear that the two boys who were out with a camping party of four were in their canoe, when, with a sudden squall coming up, the boat capsized and its occupants pre-

cipitated into the waters of the lake.

Both were well known in this city, Mr. Peart being a brother of T. W. Peart, of the Western Hardware Company, and Mr. Jelly having lived here in his boyhood. The former has also another brother and a sister in the city, one being in the same company, and the other a stenographer in the employ of the Massey-Harris Company.

Ernest came to this city last fall, and was for a time a member of the staff of the Leader, and later left that firm to go in with his brother in the firm of the Western Hardware Company.

Mr. Peart was one of the Canadians who offered their services for the empire in South Africa, he being a member of the first Canadian Contingent and saw service at Paardeberg, and the numerous other engagements in which his regiment participated with so much credit.

The loss of both these young men will be greatly felt in Regina where they have become endeared to all who knew them.

Mr. Jelly has for a long time been manager at the telegraph office, and was most obliging with all its customers.

## The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon cultivation of the land in each year during the term of three years:

(1) At least six months' residence years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry

under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must "permanently" reside on the homestead for one year before he is entitled to buildings for their accommodation, and have besides 30 acres sub-stantiated.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

## JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## LOCAL

## Train on time.

Klondike merchants have combined and the strictly cash in advance basis.

The regular meeting of the Edmonton city council will be held in the council chamber this evening.

The Calgary Herald in its Saturday edition has announced the downfall of Port Arthur. The Herald has another guess coming.

Messrs Pierpon and Toller are putting up a lively stable 30x60 in connection with the Morinville hotel. N. Brissett is the builder.

Twenty-nine out of thirty-two candidates who wrote for their public school leaving examinations from the Edmonton public school were successful.

A baseball match will be played this evening on the Hudson Bay grounds between the regular team and a team captained by Archibald, the regular pitcher.

There was a large turnout of the baseball team last night and a first-class practice game played. The boys intend visiting the Fort this week to play for the Siera cup.

Mr. R. Weir, of Ellerslie, has his barley all cut and in sheaf. It is an exceptionally good crop. Grain in all localities is heading out well and in many districts is beginning to turn.

Calgary Herald: The amount of city licenses collected for seven months this year is \$6,061.86 as compared with \$6,064.75 for the whole of last year. This shows how the town is growing.

Portage Liberal: Arthur Loftus, a former well known Portage boy, has arrived from Edmonton where he has been for some time and is visiting friends and relatives in Portage and Winnipeg.

Territorial towns are making a good showing in summer as well as in winter sports. The Calgary baseball team is cleaning up everything in amateur circles in Manitoba, and Regina is doing the same in lacrosse.

Williamson Bros. shipped a carload of hogs to Calgary Thursday and another doubledecker this morning. The price paid for hogs at present ranges from three to four cents per pound. Four cents is the top price paid.

The Vernon, B.C. News, has issued a special illustrated edition of over fifty pages. It is printed on fine book paper and the illustrations are brought out. The reading matter contains a thorough description of the town. The edition is a distinctly creditable one.

Jno. Kennedy of Poplar Lake, has just returned from a trip to Lloydminster and the British colony. The crops at the colony are good, there being some splendid wheat and oats. The country around Vegreville and for thirty miles west of the British colony needs rain and the grass is getting pretty well burnt up.

The lacrosse team had a splendid practice last night, there being a large turnout of players. Efforts have been made ever since the last match to get a game on with Strathcona, but without success. A committee of the club goes across this afternoon to endeavor to arrange for a game Wednesday evening.

Standard.—That the city of Regina is rapidly advancing as a commercial center is evident from the returns issued by the customs office. Last year the returns showed a considerable increase over 1902, being about \$150,000. The figures for the fiscal year ending June 30th, 1904, aggregate about \$241,000, an increase of nearly \$810,000 over the same period last year.

## PERSONAL

Nurse Cope left this morning for a few days' visit in Olds.

J. R. Gunn took a business trip to Lacombe this morning.

J. W. Shera, of Fort Saskatchewan, was in the city yesterday.

Rev. Father Ledue and Rev. Father Merer went to Calgary this morning.

Mrs. Cross, Mrs. C. W. Cross, and Mrs. Hobson left this morning for Banff.

J. Chapelle, of Boyne Water lake, left this morning for North Dakota points.

Miss Kilpatrick left this morning for Carman, Manitoba, on a visit to friends.

A. Charbonneau and E. Tessier left this morning for a two weeks' outing at Banff.

Miss Edith and Miss Lily Scott of Toronto are visiting Williamson brothers, Edmonton, this week.

Free Press: Mr. Ferguson Blair, of Morden, Man., who has been a guest at the Commercial hotel, left yesterday for Edmonton for a few weeks' outing.

T. E. Perrett, public school inspector, Edmonton, returned last evening from attending the sessions of the Dominion Educational Convention in Winnipeg.

Mr. Adrian Martineau of the Hudson's Bay Company, Onion Lake, is in town with a large gang of men to run a number of scows down to the company.

H. Holbroke, formerly teacher at Clover Bar, and who has been attending McGill university, Montreal, is spending a couple of weeks in this district. He is at present visiting in his old school section.

Mr. Peter Gunn, of the Hudson's Bay Company, Lac Ste. Anne, left town today, having been on a flying business trip. He was accompanied by Mr. A. S. Going, of the Grand Trunk survey party, who left for towards the mountains. Messrs. Calder and Robertson of Edmonton are also of the party.
